## MARKETS

### UNITED STATES

NOLA granular urea barges traded higher at \$208/ston fob for both July and August yesterday following reports that India might not be able to secure enough tonnage under the MMTC 17 July tender.

### BRAZIL

Similar to last week, suppliers continue to quote granular urea higher at above \$250 cfr, but no new business has been reported as both buyers and sellers alike wait to see how the MMTC 17 July tender will play out.
